Technical Update (July 2003)

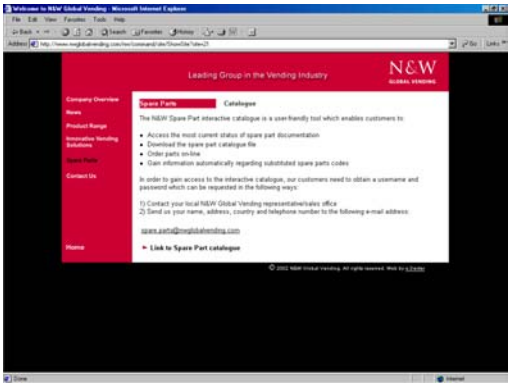
Parts listings availability on the Internet

Following recent requests, I'm very pleased to inform you that the N&W Spare Parts Catalogue is now online on our website

www.nwglobalvending.com

In a dedicated area; in order to view this information, you need to select the "Spare Parts" area on the left hand side of the main page.

The online catalogue is available free of charge for every N&W customer asking for access to it.

Customers interested to this service will be assigned, on request, a specific USERNAME and PASSWORD in order to have access to the online catalogue.


The main advantages versus the present CD ROM are:
1) User friendliness
2) Availability of updated information
3) Possibility to send orders online
4) Download of catalogue in PDF format and price lists
